SAF Signal Mapping

ECONOMICAL, EASY TO USE, RELIABLE RESULTS.

NEON Equipped Individual

NEON Tracking Unit

Signal Data

NEON Signal Mapper UI

NEON Cloud Service

NEON Command Software

Heatmap Visualization / 3D Map Creation
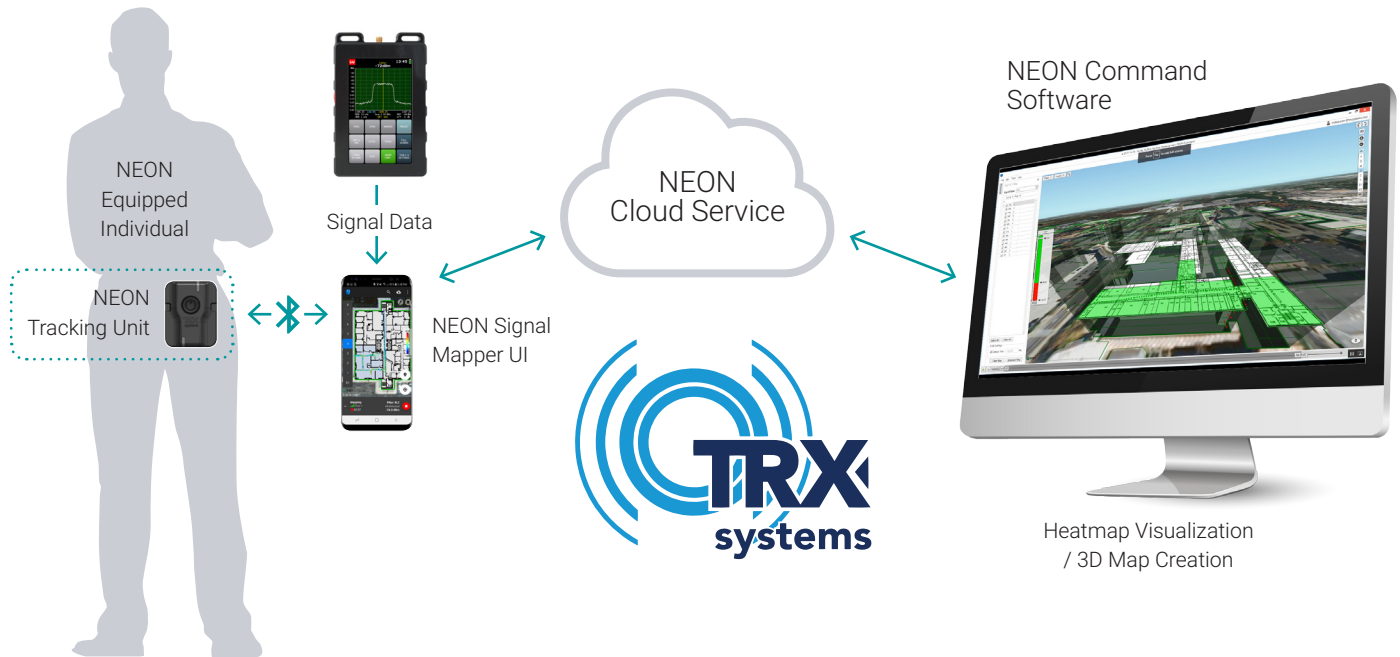

☑ **Smallest available toolset** for easy, comfortable building walks

☑ NEON Command software **records full data results** for 3D geo-referenced visualization

☑ Automatic user tracking **eliminates manual check-ins** and provides accurate location data

☑ **Color graded heatmap** provides full picture of signal coverage from 300 MHz to 3 GHz

☑ **Grid reporting** simplifies ICA and NFPA compilance

☑ **Data is easily exported in to 3rd party software platforms** such as iBwave

☑ **Combines multiple floor heatmaps** into one map
